REPORT OF THE DEPUTY MINISTER.

The Honourable
Sir Richard J. Cartwright, G.C.M.G.,
Minister of Trade and Commerce,
Ottawa.

Sir,—The ninth annual Report, (that for the year ended June 30, 1901) shows in general terms a repetition of the four or five preceding ones—that is to say a continuation of general prosperity so far as the aggregate trade of the Dominion is concerned. There have been decreases in several instances both as regards imports from and exports to different countries, as well as of various classes of goods, but all of minor importance, while on the other hand the increases have in several instances been large, with an aggregate over the previous year, in imports of nearly one million dollars in value, and in export of nearly five million dollars, the exact figures of aggregate trade showing an increase of $5,385,921. Had the usual addition that has prevailed since Confederation been made to the exports, for goods short reported, the increase shown would have exceeded $10,000,000. (*Vide* comparative statement on Page xxi, showing exports each year since Confederation on basis now adopted of no additions for amounts estimated short reported.) While the increase over the previous year has not been as large as in previous instances, still there has been no backward movement, and the progress made since 1895 has been most gratifying—the figures of total trade for that year having been $224,420,485 as against $386,903,157 in 1901—an increase of say in round figures about 72½ per cent.

It will be noted that the imports from Great Britain fell off during the year about one and one half millions while those from the United States increased about five millions—all free goods.

The exports to Great Britain were less by nearly two and one half millions—home produce—while those to the United States show an increase of nearly sixteen millions, nearly all also home produce. The aggregate trade with other countries shows in most cases small gains, though that with Belgium increased about two millions, with France over one million, while there was a falling off in the case of Germany of over one and one half millions.

A notable advance has been made during the past four or five years in the value of manufactures exported—say from about nine and one half millions in 1897—to over sixteen millions in 1901, and in this connection it may be stated that there is room for a far greater trade under that heading, if our manufacturers wish to take advantage of openings and are prepared to meet the requirements and tastes of foreign consumers. The necessity existing for strict fulfilment of orders, both as to the quality and style of goods and as to packing and shipping cannot be too strongly impressed upon those desirous of doing an export business, any laxity on their part will prove disastrous—Consumers know what they want and will insist upon having it.

The tables in Part II, of the imports into foreign countries, are published for the purpose of showing the extent of the demand for the principal classes of goods, particularly such as can be furnished by Canada—and consequent openings for trade. There are still untrodden paths to be exploited—promising openings for those enterprising enough to enter them.

The department continues to publish monthly reports—the information given therein being almost wholly different from that contained in the annual. The usefulness of the monthlies becomes more and more apparent, and the demand therefor is constantly increasing. While they are issued as promptly as possible, it is often to be regretted that they are not forthcoming sooner after the close of the month—so far this has for various reasons been unavoidable.

Attention is called to the facilities offered by the offices of the High Commissioner and the Canadian section of the Imperial Institute for furnishing information on trade matters. In both of these offices there is room for the exhibition of samples; and the Imperial Institute is now arranging for a branch to be opened in the city where Canadian samples can also be exhibited.

Letters addressed to 'The High Commissioner for Canada, Victoria Chambers, London S. W.', or to Harrison Watson, Curator Canadian Section Imperial Institute, London S. W.', will receive immediate attention. It is advisable in all cases when possible that samples be furnished and that prices be quoted, either at the works or f. o. b. at shipping port, or c. i. f. at British Port.

For the past two years weekly lists of inquiries on the part of British merchants for articles of Canadian manufacture have been received at this office, and have been duly advertised, resulting in many cases in the establishment of trade. It cannot, however, be too strongly pointed out that business cannot be proprerly carried on solely through correspondence. Those desirous of opening up trade of any magnitude must after securing preliminary information personally or by agents visit the markets they seek to enter.

The following statement showing trade figures, unrevised, for the five months to Nov. 30, 1901, with an aggregate for that period of $189,842,135 as against $176,588,527 during the same period in 1900, is a good indication of what is being done during the current fiscal year, which notwithstanding lower prices for some articles of export and short production of others, lower freights, &c., promises on the whole a goodly volume of trade and continued advance in prosperity.

Respectfully submitted,

W. G. PARMELEE,
Deputy Minister.

COINAGE, WEIGHTS AND MEASURES

To assist in arriving at a comprehensive understanding of the value of foreign currencies, weights and measures (as expressed in foreign trade returns, tariffs, &c.,) as compared with those of Canada, tables have been prepared as follows:—

As regards those of Canada, the law provides that the denominations of money in the currency of Canada shall be dollars, cents and mills, the cent being the one hundredth part of a dollar, and the mill one-tenth part of a cent.

That—The currency of Canada shall be such that the British sovereign (the pound sterling) of legal weight and fineness, shall be equal to four dollars eighty-six cents and two-thirds of a cent.

In like manner the law provides as respects weights, that the unit shall be the standard pound (avoirdupois) of 7,000 grains, one-sixteenth part of the standard pound shall be an ounce (437½ grains) one hundred pounds a cental, and two thousand pounds a ton, and that four hundred and eighty grains shall be an ounce troy, or 5,760 grains a pound troy.

As regards measures—that the unit or standard measure of capacity, as well for liquids as for dry measures, shall be the gallon containing ten standard pounds weight of distilled water weighed with the water and air at a temperature of sixty-two degrees Fahrenheit, with the barometer at thirty inches, that the quart shall be one-fourth part of the gallon, and the pint one-eighth part of the gallon, and that eight gallons shall be a bushel.

This gallon commonly known as the "Imperial Gallon," contains 277·274 cubic inches, or 353·036 cylindrical inches.

The standard measure of length is the yard, one-third part of which it is provided shall be a foot, and the twelfth part of such foot shall be an inch.

In many countries the Metric system of weights and measures has been adopted. A separate table of Canadian equivalents of these is given in order to avoid repetition, the word "Metric" being used in the general table in each case where the system is in vogue, as indicating a reference to that table.

The equivalent value of the monetary unit can only be given as respects those countries having a gold standard. Where silver is the standard, the value of the currency necessarily fluctuates correspondingly to the market value of silver billion, and were any attempt made to quote the value of such currency it would, under present circumstances, be misleading, therefore, the weight in decimal parts of an ounce with the fineness of the coin is given instead, which will enable any one to approximate the value of the currency according to the current value of fine bar silver. As an example, say fine bar silver at 75 cents an ounce, the Bolivian dollar weighs ·801 of an ounce, its fineness is ·900, therefore 75 × ·801=60·075 which × ·900=54·0675, or a small fraction over 54 cents, and the actual intrinsic value of the pure silver contained in the coin, to which should be added a reasonable allowance to cover the value of the alloy, the cost of the coinage, and in some instances exchange, the aggregate of which would be approximately the current value in Canadian currency of the dollar in question.

Unless carefully noted, the quotations as usually given of the current value per ounce of silver may be misconstrued and lead to misapprehensions, as it is sometimes quoted per ounce *fine*, and sometimes per ounce *standard;* thus for instance on a certain day the London quotation reads "fine silver per ounce standard 32 d.," while on the same day it is quoted in New York "69½ cents per ounce fine;" as 32 d. is equal to a fraction over 64⅞ cents, there would appear a difference of about 4⅝ cents per ounce between the two prices, the New York price appearing that much in excess of the other, were it not noticed that one is based upon *standard* fineness and the other upon absolute fineness, but by reducing the New York "fine" to London "standard" (of ·925 fine, or 444 grains fine to the ounce) the actual difference between the two quotations is found to be only about ⅝ of one cent per ounce, the London price being that much in excess of the New York.

To reduce the value of *standard* or sterling silver when expressed in pence to *fine* expressed in cents, multiply the pence and decimal parts thereof by 2·192.

To find the *standard* or sterling value expressed in pence and decimal parts thereof when *fine* is expressed in cents multiply the cents by 0·4562.

* Old weights and measures sometimes used. ‡ The values in Chinese Imperial Customs Returns are always given in Haikwan taels, which are relatively in value equal to about 1·113 Shanghai taels. The tael is in reality not a standard of value (there is no such coin), but of weight, and when used in the sense of a value it only represents its weight in gold or silver, as the case may be, the real difficulty is to establish its exact equivalent in grains. Authorities differ greatly, as also does the practice in different sections of China. The Chinese are far from being inexact, and the probability is that there exists a standard, and a further probability that it is equal to 10 Japanese mommes, or 579·72 grains, which figures have been used in computing the value as above. It will be observed, however, that these figures fall short about 3·61 grains from the weight usual (say 1⅛ oz. per tael) in dealing with the weights other than those of gold and silver. † For many years the value of the peso in Chili has been 91·2 cents, but by the Resumption Act of Feb. 11, 1895, the value of the peso is made equal to 18 pence = 36·5 cents. § Usually reckoned same as Chinese Picul of 133⅓ lbs. ϕ This is long measure. Cloth measure is 25% greater in length than long measure. Therefore by cloth measure 1 sun=1·4916 in., 1 shaku = 14·916 in. and 1 jo = 149·6 in.

TABLE of constant Factors, which multiplied by the current value per ounce of silver, either pure or standard as the case may be, will give the value of the silver contained in the coin referred to, to which if there be added a small percentage to cover the value of the alloy and the cost of coinage, the aggregate will equal the then intrinsic value in Canadian currency of the coin in question.

CHINESE IMMIGRATION

No. 71.—Statement showing the Transactions under the Chinese Immigration Acts to June 30, 1901.

The Original Act went into force as respects arrivals by vessels sailing from ports in North America on August 20, 1885, and as respects arrivals by other vessels on January 1, 1886, *vide* 48–49 Victoria, chapter 71.

The Act as it appears in the Revised Statutes, chapter 67 (1886), is slightly changed from the original. There have been since then two amendements thereto, viz.: as per 50–51 Victoria, chapter 35 (1887) and 55–56 Victoria, chapter 25 (1892).

These General Acts were repealed by the Act 63–64 Victoria, chapter 32, which came into force January 1, 1901.

The administration of the Act was by Order in Council of September 1, 1885, assigned to the Department of Customs and transferred to the Department of Trade and Commerce by Order in Council of March 13, 1893.

The annual revenue, expenditure, &c., has been as follows :—

TREATIES AND CONVENTIONS.

(A.)—CONVENTION BETWEEN THE UNITED KINGDOM AND FRANCE REFERRING TO ARBITRATION THE SETTLEMENT OF DIFFERENCES IN CONNECTION WITH THE WAIMA AND "SERGENT MALAMINE" INCIDENTS.

SIGNED IN PARIS, APRIL 3, 1901. RATIFICATIONS EXCHANGED AT PARIS, JULY 17, 1901

The Government of His Britannic Majesty and the Government of the French Republic, having agreed to settle by arbitration the "Sergent Malamine" and Waïma incidents, have appointed as their Plenipotentiaries:

His Majesty the King of the United Kingdom of Great Britain and Ireland, Emperor of India, his Excellency the Right Honourable Sir Edmund Monson, his Ambassador Extraordinary and Plenipotentiary to the President of the French Republic; and

The President of the French Republic, his Excellency M. Th. Delcassé, Deputy, Minister of Foreign Affairs of the French Republic;

Who, duly authorized for that purpose, have agreed upon the following Articles:—

ARTICLE I.

The Arbitrator shall give a final decision:—

1. In regard to the amount of the indemnity for the British victims in the Waïma affair to be paid by the French Government.

2. In regard to the amount of the indemnity for the loss of the "Sergent Malamine" to be paid by the British Government; this amount shall neither be less than 5,000*l*, nor more than 8000*l*.

ARTICLE II.

In order to enable the Arbitrator to pronounce his decision, each of the two Parties shall, within the space of two months from the exchange of the ratifications of the present Convention, furnish him with a Memorandum on the question which such Party, as plaintiff, submits to him. To this Memorandum shall be annexed all such documents as shall be considered necessary, a statement of facts an an assessment of damages, &c.

ARTICLE III.

After the lapse of the period fixed in Article II, each of the Parties shall have a further period of two months within which to furnish the Arbitrator, if it is considered necessary, with a reply to the allegations made by the other Party.

ARTICLE IV.

After a third delay of two months, the Plaintiff shall be at liberty to furnish the Arbitrator with a counter-reply.

ARTICLE V.

The Arbitrator shall have the right to ask for such explanation from the Parties as he may deem necessary, and shall decide any questions not foreseen by the arbitral procedure, and any incidental points which may arise.

ARTICLE VI.

The costs of the Arbitration as fixed by the Arbitrator shall be equally divided between the Contracting Parties.

ARTICLE VII.

The communications between the Contracting Parties shall be conducted through the intermediary of the Department of Foreign Affairs of the Kingdom of Belgium.

ARTICLE VIII.

The Arbitrator shall decide within a maximum delay of six months, to date from the handing in of the first Memoranda, or as the case may be, of the replies or of the counter-replies.

ARTICLE IX.

The Memorandum, and, as the case may be, the reply and the counter-reply of each Party, as well as the documents annexed to them, printed and in French, shall be handed to the Arbitrator, and shall be at once communicated by him to the other Party.

ARTICLE X.

This convention, on the completion of the legal formalities, shall be ratified by the two Governments, and the ratifications shall be exchanged at Paris as soon as possible.

In witness whereof, the undersigned Plenipotentiaries have drawn up the present Convention and have affixed thereto their seals.

Done in duplicate at Paris, the 3rd of April, 1901.

(Signed) (L.S.) EDMUND MONSON.

(Signed) (L.S.) DELCASSÉ.

(B.)—CONVENTION BETWEEN THE UNITED KINGDOM AND THE UNITED STATES OF AMERICA FOR THE MUTUAL EXTRADITION OF FUGITIVE CRIMINALS.

SIGNED AT WASHINGTON, DECEMBER 31, 1900.

(Ratifications exchanged at Washington, April 22, 1901)

Her Majesty the Queen of Great Britain and Ireland and the President of the United States of America, being desirous of enlarging the list of crimes on account of which extradition may be granted under the Convention concluded between Her Britannic Majesty and the United States on July 12, 1889, with a view to the better administration of justice and the prevention of crime in their respective territories and jurisdictions, have resolved to conclude a Supplementary Convention for this purpose, and have appointed as their Plenipotentiaries, to wit:

Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, His Excellency the Right Honourable Lord Pauncefote, Knight Grand Cross of the Most Honourable Order of the Bath, Knight Grand Cross of the Most Distinguished Order of St. Michael and St. George, and Her Majesty's Ambassador Extraordinary and Plenipotentiary to the United States; and

The President of the United States, the Honourable John Hay, Secretary of State of the United States;

Who, after having communicated to each other their respective full powers, which were found to be in due and proper form, have agreed to and concluded the following Articles:

ARTICLE I.

The following crimes are added to the list of crimes numbered 1 to 10 in the first Article of the said Convention of July 12, 1889, on account of which extradition may be granted, that is to say:

11. Obtaining money, valuable securities, or other property by false pretences.

12. Wilful and unlawful destruction or obstruction of railroads which endangers human life.

13. Procuring abortion.

ARTICLE II.

The present Convention shall be considered as an integral part of the said Extradition Convention of July 12, 1889, and the first Article of the last mentioned Convention shall be read as if the list of crimes therein contained had originally comprised the additional crimes specified, and numbered 11 to 43 in the first Article of the present Convention.

The present Convention shall be ratified, and the ratifications shall be exchanged either at London or Washington as soon as possible.

It shall come into force ten days after its publication, in conformity with the Laws of the High Contracting Parties, and it shall continue and terminate in the same manner as the said Convention of July 12, 1889.

In testimony whereof the respective Plenipotentiaries have signed the present Convention in duplicate, and have thereunto affixed their seals.

Done at Washington, this 13th day of December, 1900.

(Signed) (L.S.) PAUNCEFOTE.
